GIANT SCREEN FILM

**Showing at 7:30 p.m. and 8:30 p.m.
during WildWoods: AGLOW dates**

Fungi: Web of Life explores the complexities of fungi, which are neither a plant nor an animal, in this visually stunning giant screen film. The movie showcases the different kinds of fungi around the world — throughout Tasmania, the UK, China and the US, for example — and their relationships with their environment and other organisms, including humans.
